

Response from John Wesley Chisholm, PC Candidate

Question #5

What is your plan to grow the economy, create jobs, and retain our youth here in our province?

I've shared my New Home Economics ideas with you.

With regard to youth and education, the idea that I've brought with me to share in the future is the notion of a Nova Scotia Youth Corps. It's an idea that reconnects youth to the province by trading students university education for service to the community.

Here are the details of the idea:
